International Orientation & General Induction Activities

The International Orientation is arranged by the Student Affairs department and takes place each year on the Friday before the start of Term 1 (Friday 15 September 2023). You will have an opportunity to meet fellow students and staff, and there will be a programme of presentations, tours and discussion groups.

All students are required to engage in the induction activities within the first two weeks of Term 1, including attendance at group meetings with the Director of Music and senior members of the Principal Study and Academic Studies Departments.

Reflective Practice Module

Postgraduate Short Term Music students will attend and be assessed in the Reflective Practice Module. This will normally be delivered through two seminars at the start of each term and a seminar at the end of each term. These seminars, and associated assessment tasks are supported by discussion groups which normally meet twice a term.

This module aims to:

- Introduce general research and professional development issues of relevance to all postgraduate students.
- Develop students' capacity to reflect intelligently on the nature of musical excellence and on their own emerging professional ambitions.
- Help students be open-minded in questioning the boundaries of traditional practice in relation to self-reflection, research and professional development.
- Ensure students are able to articulate and present their self-reflections and their ideas for research and professional development in a manner which is appropriate.

The assessment is through the submission, by the middle of the first term, of a short piece of written work (a self-reflective account).
