English language support

Incoming students are expected to be competent in English at a minimum of level B2 of the *Common European Framework of Reference for Languages*. Referees will be asked to confirm the competency of incoming students.

However, students are invited to undertake a non-credit bearing *Written English* module alongside their Erasmus studies. This class focuses on the development of skills in written English for academic purposes. It includes written and spoken exercises for developing the acquisition of grammar and vocabulary. If you wish to attend, please discuss this at your entry meeting with Academic Studies in September.

Students will also be put in touch with an ‘International Buddy’ before the start of term. This is a student at Guildhall School who can help answer questions about settling in to the School and life in London.

International Orientation and general induction

The International Orientation is arranged by the Student Affairs department and takes place each year on the Friday before the start of Term 1 (Friday, 13 September 2024). You will have an opportunity to meet fellow students and staff, and there will be a programme of presentations, tours and discussion groups.

All students are required to engage in the induction activities within the first week of Term 1, including attendance at group meetings with the Director of Music and senior members of the Principal Study and Academic Studies Departments.

Reflective Practice Module

All postgraduate Erasmus students **will attend** and **be assessed** in the Reflective Practice module. This will normally be delivered through two seminars at the start of the autumn term. These seminars, and associated written task, are supported by discussion groups which normally meet twice a term.

This module aims to:

- Introduce professional development issues of relevance to all postgraduate students
- Develop the students' capacity to reflect intelligently on the nature of musical excellence and on their own emerging professional relationship with musical performance, composition and leadership.
- Allow an opportunity for consideration of aspects of the students' long term artistic professional development.

Students will be asked to submit, by the middle of the first term, a short piece of written work (a self-reflective account) which they will be assessed on.

Principal Study Modules

Students' activities vary by department. All aspects of the Principal Study Module are expected to be attended by the student during their period of study including all scheduled rehearsals. A Leave of Absence form must be approved for any absences during term-time.

The allocation of the Principal Study teacher is determined by student preference and tutor availability, and the final decision is made by the Head of Department. The School does not guarantee study with a particular Principal Study teacher.
